For the 15th time, the international hemp industry will meet in Cologne (Germany). The participant number of the “International Conference of the European Industrial Hemp Association” has grown from 50 in 2003 to an impressive 330 in 2017 with participants from 44 countries. It was the **largest conference on industrial hemp of all time and worldwide**. 37 international speakers discussed the latest technological developments, new products, market volumes and strategies.

More than a hundred face-to-face meetings between farmers, processors, producers, scientists and investors were organized. **Several workshops for regular members** of the “European Industrial Hemp Association (EIHA)” and scientific experts took place the day before the conference.

We are expecting an equally successful event for 2018!

Advertisement Information

Your advertisement is included in the digital edition as well as in the hard copy of the conference leaflet and journal. Maximize your visibility – the digital edition of the leaflet is

being sent out to more than 35,000 recipients per e-mail blast! The price for one page (DIN A4) is 500 EUR, half a page costs 300 EUR (plus 19% VAT).

Innovation Award “Hemp Product of the Year 2018”!

For the first time, the Innovation Award “Hemp Product of the Year 2018” will be granted to the young, innovative industrial industry for finding suitable applications and markets for industrial hemp based products. The focus of the award is on new

developments within these business areas. **Producers and inventors of innovative industrial hemp products are invited to hand in their application by end of March 2018.**
